

CORE-T4

OUT OF THE OFFICE

With the **CORE-T4** tablet, you'd never have believed that you could take your office this far. Industry, construction, catering, no matter the sector of activity in which it is used, the AER-certified **CORE-T4** tablet proves its performance, resistance (military standards MIL STD-810G, drop test 1.5 m) and waterproofness, even in the most hostile environments.

Not content with offering an ultra high-performance battery (7000 mAh), its battery life can be extended with the **X-POWER** power bank via the **X-LINK*** attachment. This means you can watch your films and entertainment and unwind after a busy day without worrying about the battery dying. Just like the most committed professionals, it's never disconnected. Its 4G and WiFi connectivity make it a mobile solution allows you round the clock

connection. Its large 8" screen provides reading comfort and ergonomics, especially when you need to connect or access your data in difficult places.

But it is when it is connected to the magnetic **X-LINK*** holder that the **CORE-T4** tablet reveals its maximum potential. It then becomes compatible with the multiple Crosscall accessories, such as the **X-DOCK** and truly becomes a mobile office.

With a high performance, it boasts the latest fast and fluid interface (Android 9), which allows professionals to be mobile and efficient. Such resistance and efficiency is not a given in all office settings.

* Magconn Technology

OUTDOOR

AN OUTDOOR TABLET

With 13 military standard tests in the bag, the **CORE-T4** flies through the hiring process! Its resistance makes it the perfect mobile office, ensuring long-lasting functionality in every environment. The choice of its excellent quality components (Corning protective glass, Qualcomm SDM 450 processor) makes it a sustainable investment for all phone fleet managers.

Accompanying professionals who are not afraid of bad weather, it resists rain and even salt water making it perfect to be used as a GPS on a boat, for example.

And for an optimal experience, you benefit from a whole range of accessories such as its stylus or very practical rotating handle.

Boasting so many assets, the **CORE-T4** will be easily at home carrying out inventories, taking orders in catering, merchandising in digital stores, on site to take measurements or view available plans with its 8" screen, or when used by the emergency services or in agriculture. The **CORE-T4** adapts to every trade, even yours.

BATTERY

DON'T COUNT THE HOURS

Where other tablets call it a day, the **CORE-T4** keeps on going and continues to deliver all its high performance, even for the most energy-drawing uses. Its 7000 mAh battery prevents any activity downtime and allows you to work peacefully for a long time. Even after a hard day at work, it's always ready to put in a few hours of overtime. You can watch films and box sets, play online, go to YouTube or browse the web, without having to keep an eye on the battery level.

And as if that weren't enough, if you don't have any power sockets nearby, the battery life can be increased with the **X-POWER** 6000 mAh power bank or the **X-CAR** vehicle charger.

The **CORE-T4** only stops working when you ask it to.

ERGONOMICS

BUILT FOR YOUR JOB

You can be efficient and resistant without being bulky. 8" and 14mm thick are sufficient for the **CORE-T4** to be essential for everyday life. It is so practical and compact that it can be used single-handed thanks to its **X-STRAP**. There's no need to take off your gloves every time you use it, the Glove mode keeps the touch screen functional.

As for performance, you have the Android 9 interface for smooth and comfortable experience, and a Qualcomm SD450 Octo-Core 1.8 GHz processor for optimum performance. Nothing less than the best technology will do to provide you with everyday support

SUITABLE FOR THE GENERAL PUBLIC

The **CORE-T4** can combine professional and personal life perfectly. A whole entertainment centre is available to you when you're on the move, in the train, at the hotel, pool or beach. Its dual SIM drawer AND its micro SD slot means you can remain in touch for work. With its refiined lines, it elegantly accompanies you on all your trips and with its robust design it resists even the most boisterous handling by children. You need resistance to keep the whole family entertained.

CONNECTIVITY

CONNECTED TO YOUR ACTIVITY

Nowadays, regardless of the trade, you must be connected and reactive. To meet the needs of the most demanding professions, the **CORE-T4** has 4G+, with a speed up to 2x faster than 4G. This characteristic frees up a considerable number of uses. A connected tablet is a definite asset benefitting every sector of activity: Make video calls, exchange live data, access professional apps, perform and transmit appraisals in real time.

Finally, it has a wide range of bands that allow it to use PMR and be compatible with most European operators. Bingo, you're equipped

ANDROID ENTERPRISE RECOMMENDED

If Android even recommends it ... the Enterprise Recommended certification guarantees that devices correspond to the criteria set up by Google during its tests (zero-touch, provision of regular updates?, etc.) And thanks to its remarkable performance and recognised resistance, the **CORE-T4** has been AER-certified by Google.

X-LINK*

MAGNETIC ATTACHMENT SYSTEM

FIX

Reversed polarity Easy to mount and position in portrait/landscape mode.

TRANSFER

Easy to use. No need for cables! One-step fixing, charging and data transfer.

CHARGE

Fast and efficient charging. 98% power transfer
